

## COVID-19 Update 3/19/20

The Mississippi State Department of Health (MSDH) advises that given the ongoing spread of COVID-19 in Mississippi and the shortage of protective medical equipment, elective medical procedures and ***non-essential medical visits must be postponed.***

At this time, any elective or non-essential surgical or diagnostic procedures at George Regional Hospital will be re-scheduled until the threat of COVID 19 is diminished.

Our goal is to provide the best medical care to our community and do everything we can to lessen the spread of this virus. These measures will help protect our patients and their caregivers by minimizing potential exposure and preserving valuable protective equipment.

If you have questions concerning your future procedures please call 601-947-3161
